

2nd TCAM

**2nd INTERNATIONAL THAI COSDERM
CONGRESS ON AESTHETIC MEDICINE 2012**

"Master in Aesthetic Trends"

Arranged by the Thai Society of Cosmetic Dermatology and Surgery

October 31st-November 2nd, 2012

Centara Grand Hotel, Lardprao, Bangkok, Thailand

PROGRAM BOOK

After laser treatment,
Dark spots and melasma still occur

NEW!

Beyond high UVA/UVB protection

With natural anti-inflammatory, **Licochalcone A**
Effectively prevent recurrence of hyperpigmentation inside irritated skin

Immediate protection for skin after laser treatment with;

- **Inorganic protection:** Micronized Titanium Dioxide
- **Organic protection :**
 - Broadband UV filters - Tinosorb S provides 3X superior protection against UVA/UVB than Mexoryl XL
 - UVA filters - Avobenzone with UVA photo-stabilizer (Tinosorb S + Octocrylene)

Natural anti-inflammatory; Licochalcone A :

proven to significantly inhibit production of pro-inflammatory cytokines* and UVA-induced oxidative stress** within the skin, thereby preventing inflammation and Tyrosinase activation. This remarkable active ingredient helps protecting irritated skin from post-inflammatory hyperpigmentation

*Anti-inflammatory properties of Licochalcone A from Glycyrrhiza inflata on human skin, G. Neufang, J. Immeyer, J. Batzer, F. Stab, H. Wenck, L. Kolbe, Beierdorf AG, Research skin care, Hamburg, Germany

** Anti-oxidative properties of Licochalcone A from Glycyrrhiza inflata on human skin in vitro and in vivo, L. Kolbe, J. Kolbe, J. Kuhn, L. Gonda, N. Peters, F. Stab, G. Neufang, Beierdorf AG, Research skin care, Hamburg, Germany

Dr. Thada Piamphongsant

The President of the Thai Society of
Cosmetic Dermatology and Surgery

"Master in Aesthetic Trends"

**Arranged by the Thai Society of Cosmetic
Dermatology and Surgery**

**October 31st - November 2nd, 2012
Centara Grand Hotel, Lardprao, Bangkok, Thailand**

President's message

Side-effects and complications from new equipments have been encountered in young practitioners. In this congress, well-known leaders would share their experience in using new equipments and techniques of what should be done. They would criticize in controversial aspects. Young aesthetic practitioners should update their knowledge and skill in order to improve their standard of treatment and reduce complications.

This congress also includes cadaver workshop which has not been conducted in this zone before to prevent aesthetic complications. Scientific topics including lectures and workshops will cover the following:

- Facial contour with fillers
- Facial wrinkle reduction with botulinum toxins
- Skin tightening and fat reduction
- Facial rejuvenation by cosmeceutical injections, silks and threads, lasers and RF techniques
- Unexpected complications and how to correct
- Supplements of internal beauty
- Misc: Hair, acne, melasma treatment

It is a superb opportunity to learn the new techniques and ideas from the experts in this field. Hope to see you here in Bangkok.

**2nd International Thaicosderm
Congress on Aesthetic Medicine (2nd ITCAM)
"Master in Aesthetic Trends"**

ORGANIZING COMMITTEE 2012

Dr. Thada Piamphongsant
President

Dr. Thamthiwat Nararatwanchai

Committee and Academic

Dr.Atchima Suwanchinda
Academic

Beomjoon Kim

Dr. Beomjoon Kim graduated from College of Medicine, Chung-Ang University, Korea, and also graduated Master of Science, Doctorate of Philosophy, Dermatology, Chung-Ang University, Korea. His current position is an invited reviewer of British Journal of Dermatology, Journal of American Academy of Dermatology and International Journal of Dermatology, being an instructor, international staff, Eastern University, Pennsylvania, USA and Editorial Board, Journal of the American Academy of Dermatology and being an editorial Board, Journal of the American Academy of Dermatology.

Cristina Puyat

Dr. Cristina Puyat completed her degree in medicine and surgery from University of Santo Tomas in the Philippines. She took up Dermatology at the Jose Reyes Memorial Hospital, after which she went on to Baylor College of Medicine in Houston, TX USA, for her Dermatology Surgery studies. She is the current Secretary of the board of directors for the Philippine Academy of Dermatologic Surgery.

Because of her ardent desire to give her patients the best care, Dr Puyat became involved in Anti-Aging Medicine and Stem Cell technologies, subsequently seeking her Masters Degree in Preventive and Regenerative Medicine at the Dresden International University in Dresden, Germany. She is a founding member and head of Public Relations of the World Council of Preventive, Regenerative & Anti-Aging Medicine (WOCPPM), and board certified by the World Society Interdisciplinary Anti-Aging Medicine (WOSIAM), and currently completing her board certification for the American Academy of Anti-Aging Medicine (A4M).

Eiji Yamashita

Dr. Eiji Yamashita graduated his degree in accordingly Bachelor degree at Kyoto Pharmaceutical University, Master degree from Department of Natural Products Research, Kyoto Pharmaceutical University and Doctor degree from Department of Medical Biochemistry, Faculty of Pharmaceutical Sciences, University of Tokushima Research and Professional. He is Global Research and Development Manager at Fuji Chemical Industry Co., Ltd. and General Manager for Medical Nutrition Division at AstaReal Co., Ltd. He is the membership of many societies such as American Academy of Anti-Aging Medicine, Japanese Society for Astaxanthin and Japanese Cosmetic Science Society and The International Carotenoid Society, Etc., He got an Astaxanthin Award from the Japanese Society for Astaxanthin. Dr. Yamashita is recognized as one of the world's foremost authorities on astaxanthin for the benefit of human health, both as a dietary supplement and for topical application.

George M. Sulamanidze

A specialist in aesthetic surgery and aesthetic medicine was born in 1979 in Georgia. In 2002 he graduated from the Medical State University of Russia. In 2004 graduated from residency and in 2007 – from clinical studies of the Russian Scientific Surgery Center's (RAMS) department of plastic, reconstructive microsurgery, and get Ph degree on the theme New methods of liposuction.

Published more than 65 scientific articles, 28 of them - in leading international issues.

Obtained 18 patents and priorities of invention in plastic surgery, 8 of which are international. Among them are patents for: Aptos threads, Wire Scalpel, a new implant for aesthetic operations, therapeutic brassiere, and mammoplasty and dermothensy methods. He devised a variety of new original operations in his profession, including methods of contour compression in rhinoplasty, horizontal mammoplasty methods, methods of "subcutaneous brassiere", methods of accelerated expanding, wire and liquid-gelulardermothensy, methods of minimally invasive surgery to eliminate discernible manifestation of aging process (wrinkles, ptosis of soft tissues), and other aesthetic deformations.

Garry F. Gordon

GARRY F. GORDON, MD, DO, MD (H), received his Doctor of Osteopathy in 1958 from the Chicago College of Osteopathy in Illinois, his honorary MD degree from the University of California Irvine in 1962 and completed his Radiology Residency from Mt. Zion in San Francisco, California in 1964.

A Board Member of Arizona Homeopathic Medical Examiners for nine years, and Co-Founder of the American College for Advancement in Medicine (ACAM), Dr. Gordon is currently President of Gordon Research Institute (GRI). Presenting over 50 years of scientific and clinical research, Dr. Gordon hosts the F.A.C.T. group (Forum on Anti-Aging & Chelation Therapies), a free online school of advanced and alternative medicine, where over 3000 health practitioners from around the world conference and exchange knowledge.

Recognized as the "Father of Chelation Therapy" Dr. Gordon is an expert on nutrition, mineral metabolism, and longevity. He serves as full-time consultant for Longevity Plus, LLC – a nutritional supplement company based in Payson, Arizona where he is responsible for designing effective, natural, nontoxic alternative supplements for the treatment of every disease known to man.

Gregor Wahl

Gregor Wahl finished his medical studies at Technische Universitaet in Munich and also received specialist certification in Dermatology and Venerology, Allergology. Dr. Wahl specialises in surgical and aesthetic dermatology, particularly in minimally invasive techniques including the use of Botulinum toxin, injectable fillers, peels, lasers etc. He studied and trained in Germany, in the United Kingdom and at the University of California, San Francisco (UCSF). He is very active in giving lectures and training courses at home, throughout Europe and internationally. He also is a respected member of expert faculties on facial aesthetics.

Lee Young Seob

Lee Young Seob graduated from the College of Medicine of Chungang University and later majored Preventive Medicine for his masters. Dr.Lee was previously the Director of Plastic Surgery Department of Gachon Medical School. He is currently the President of the Korean Anti-Aging Academy of Aesthetic Medicine (AAAM) and adviser for the Doctor's Association of Obesity Research. He is a member of various associations such as the Korean Societies of Plastic Surgery and Aesthetic Plastic Surgery, Society for surgery of the Hand, the International Confederation for Plastic Reconstructive and Aesthetic Surgery and the American Academy of cosmetic Surgery.

Lee, Hwang Heul

He is in charge of many position in many institution such as Director of NB Clinic in Nowon and Chungdam, President of Korea Association for Trichology, General Director of Korean Society of Aesthetic Surgery, He was a doctor instructor in Korea, China, Japan, Hong Kong, Taiwan, and North America. He also being member of many society ex. Regular Member of Korean Society for the Study of Obesity Regular Member of NAASO(the North American Association for the Study of Obesity).

Jaratsak Ruangpeerakul

Dr. Jaratsak Ruangpeerakul graduated bachelor degree in medical doctor from Mahidol University. He got many certificate such as Certificate of Thread Lift in Advance technique (LDK), Ultra V-Lift (Fine Thread Lift.FTL) in Advance technique , Etc.,

He also got diploma from thai board of Family medicine. He is a speaker many topics in Mae Fah Luang Annual Research Conference such as Facial Rejuvenation by thread lifting, All you must know about Fractional lasers and FRM Technology and aesthetic rejuvenation

Jinda Rojanamatin

Jinda Rojanamatin, Institute of Dermatology, Bangkok, Thailand
Currently, Dr.Jinda is a Deputy Director and Head of Dermatotomy and Laser Department at Institute of Dermatology, Bangkok. He has also served on the board of Dermatological Society of Thailand.

Dr.Jinda has been invited as a speaker at the several prestigious international meetings, such as World Congress of Dermatology, International Society for Dermatologic Surgery, including International Congress of Dermatology and Eurasian Congress in Aesthetic & Anti-Aging Medicine. His major topics of interest are skin laser surgery, as well as, Botulinum toxin and Fillers.

Joseph Amado C. Galvez

Joseph Amado C. Galvez graduated his diplomatic of Otolaryngology-Head & Neck Surgery, Inc. Board Topnotcher (2001). He is the president of Facial Aesthetic plastic Core of ENT Surgeons (F.A.C.E.S.). He also be the founding member / Vice Chair of Philippine Academy of Facial Plastic reconstructive surgery (PAFPRS). Currently he is the member of several societies such as ASEAN Academy of Facial Plastic and Reconstructive Surgery, International Federation of Facial Plastic Surgery Societies etc., He is associate Professor at Department of Otorhinolaryngology-HNS;Emilio Aguinaldo College- College of Medicine, Ermita, Manila and also be assistant Professor at Facial Plastic Surgery (Otorhinolaryngology-Head and Neck Surgery); University of the City of Manila College of Medicine; Intramuros, Manila He is a key Opinion Leader for Allergan Facial Aesthetics; Southeast Asia

Kamol Wattanakrai

He was a fellow of The Royal College of Surgeons of Thailand in 1985 and was an international fellow in Plastic surgery, Cleveland, Ohio, USA in 1997. His current position President of the 14th International Congress of The Oriental society of Aesthetic Plastic Surgery, Secretary General of The Society of Plastic and Reconstructive Surgeons of Thailand and Secretary General of The Society of Aesthetic Plastic Surgeons of Thailand. He was an invited speaker in many topic such as Lower eye lid rejuvenation, A paradigm shift, Lower lid blepharoplasty, Blending of the lower lid cheek junction and Thread Lift: Past, Present and Future, etc.,

Kwon, Han Jin

Dr. Kwon is Aesthetic Dermatologist & surgeon who graduated from Central University, College of medicine. He is the President of Natural Beauty Clinic, Gang-nam Station and President of the International Aesthetic Medical Association, Korea. He is currently Executive Director of Personalized Medical Association of Korea and the Academic Director of Natural Beauty Clinic Network. Dr. Kwon is also a Professor at Seokyeong University, College of Beauty & Cosmetics in Korea.

Kritsada Kowitwibool

Dr. Kritsada Kowitwibool graduated bachelor degree of Doctor of Medicine (Second Honor) from Faculty of Medicine, Ramathibodi Hospital Mahidol University, Thailand. He got certificate in clinical science (Otolaryngology) from Faculty of Medicine, Ramathibodi Hospital Mahidol University in 2004. Dr. Kritsana also got certificate from Thai Board of Otolaryngology and Facial Plastic and Reconstructive Surgery Medical Council of Thailand.

Kyle Koo II SEO

Dr. Kyle Koo-II Seo received his M.D. and Ph.D. from Seoul National University's College of Medicine, Seoul, South Korea in 1990 and 2000 respectively. He continued at Seoul National University completing his residency in the Department of Dermatology in 1995, as well as his Fellowship in the same hospital in 2000. Dr. Seo became a Clinical Associate Professor in the Department of Dermatology of Seoul National University Hospital. Presently he is the Director of Modelo Clinic in Seoul, South Korea.

Dr. Seo is widely-recognized as a leader of botulinum toxin and filler in the Asia Pacific region. His extensive experience provides him many opportunities to lecture internationally on the subject of botulinum toxin and filler. In 2011 he lectured at the World Congress of Dermatology, "What's new about botulinum toxin and filler", "Asian characteristics in botulinum toxin and filler" and "redistribution process of facial fat" in Seoul, South Korea.

Marisa (Charoenlap) Pongpruthippan

Dr. Marisa graduated bachelor degree in medical doctor from Ramathibodi Hospital, Mahidol University. She has an experience in writing many book chapters and publishes in Thai language such as Drug reaction with eosinophilia and systemic symptoms, Body contouring procedure, Facial anti-aging procedure, Etc., She was a Course director in "Botulinum toxin and other injectables" Her current position is instructor of Division of Dermatology, Department of Medicine, Faculty of Medicine, Chulalongkorn University.

Nalinee Sutthipisal

Nalinee Sutthipisal 1st Class Hons, (Chulalongkorn Univ.) , Dermatologist, Head of the Department of Dermatology and Esthetics Institute, Samitivej Sukhumvit Hospital, Bangkok, Thailand. She is also certified in Anti-Aging Medicine Specialization (WOSAAM) and currently Vice President of the Thai Association of Anti-Aging and Regenerative Medicine as well the registrar of the Thai Society of Cosmetic Dermatology and Surgery.

Niwat Polnikorn

Niwat Polnikorn is currently a clinical Professor in Dermatology and Director of Kasemrad Aesthetic Center, Kasemrad Prachacheun Hospital and Chaophraya Aesthetic Center, Chaophraya Hospital in Bangkok, Thailand. He was also previously the President of the Thai Society of Cosmetic Dermatology and Surgery. He is member of the American Society of Dermatologic Surgery and the Asian Dermatologic Laser and Surgery Study Group.

Paisal Rummaneethorn

Paisal Rummaneethorn graduated his Bachelor Degree of Medicine with first class honours in 1984 at Chulalongkorn University Hospital. Dr. Rummaneethorn got a Certificate in Laser Medicine from Tokyo Women Medical University in 1992 was Thai Board certificate for Facial Plastic Surgery (ENT) in 2006. He also got his Bachelor degree of LAW from Sukhothaimatirat University. Currently he is the committee of several societies such as Thai Society of Cosmetic Dermatology, The Thai Association. He is the lecturer at School of Antiaging, Mah Fah Luang University and The lecturer at the Skin center Srinakarin University and currently Editor in Chief of Asian Journal of Aesthetic Medicine.

Pakpilai Thavisin

Dr. Pakpilai Thavisin is a certified medical professional in Aesthetic and Anti-Aging medicine. She has had extensive experience both within Thailand and internationally. Dr. Pakpilai is now the President of S Medical Spa, the awards winning rejuvenation center in Bangkok. She is a regular speaker in many congresses such as AMWC (Anti-Aging Medicine World Congress), Aesthetic Asia (Singapore), ICAD, ICAAM (Dubai) and IMCAS and also a regular guest for many TV programs including "The Doctors". Dr. Pakpilai is on scientific board committee of World MediSpa Association and World Society of Anti-Aging Medicine. She is a well-known contribute columnist in Thailand for several magazines including Marie Claire, Slimming and Health Plus and an author of 6 pocket books.

Pawas Manasnayakorn

Dr. Pawas Manasnayakorn graduated dermatology master degree from Chulalongkorn university. She has experience in cosmetic practice more than 10 years. Her current position is lecturer of dermatology unit, Department of medicine, Chulalongkorn University. She is a columnist for woman and sport magazine. She work as part-time dermatologist for orphanages

Puttipong Poomsuwan

Dr. Puttipong graduated bachelor degree of Doctor of Medicine, (Second Class) Honors from Mahidol University and Diploma in Dermatology from St. John, Institute of Dermatology, United Medical and Dental Schools of Guy's and St Thomas's Hospitals, University of London. He got the Fellow in Dermatotomy from Jackson Memorial Hospital (University of Miami school of medicine, USA). Dr. Puttipong also got certificate in Chelation Therapy from The American College for Advancement in Medicine, USA. His current position are the founder and managing director of Wongsada Clinic and AIC, Aesthetic Innovation Center. He is the first pioneer doctor in Fine Thread Lift, UVL, of Thailand.

Rassapoom Sumaetheiwit

Dr. Rassapoom Sumaetheiwit graduated from Faculty of Medicine, Prince of Songklanakarind University (1st Honour). He got certificate in cosmetic and Laser surgery form Greater Miami Skin Center, Mt. Sinai Medical center, Florida, U.S.A. His present positions are Executive Director of RFDI By Rassapoom Institute and Clinic, Dermatologist of Samitwaj Esthetic Institute of Samitwaj Sukhumvit Hospital and be a Columnist for many magazine such as Kulasatree Magazine, Maebann Magazine, Chewajit Magazine, etc.,

Ratchathorn Panchaprateep

She graduated Medical degree (First Class Honor), Diplomate and Master degree of Science in Dermatology from Faculty of Medicine, Chulalongkorn University, and studying Phd. in skin and hair stem cell at Faculty of Medicine, Chulalongkorn University. She got certificate in Aesthetic and Anti-Aging Medicine (ECCA). She is instructor in Dermatosurgery, Chulalongkorn University since 2008

Rungsima Wanitphakdeedecha

Dr. Rungsima Wanitphakdeedecha is a dermatologist and dermatologic surgeon in Bangkok, THAILAND. She completed her dermatology residency in 2003 at Faculty of Medicine Siriraj Hospital, Mahidol University, Bangkok, THAILAND. She has been serving as a faculty in Dermatosurgery Unit, Department of Dermatology, Faculty of Medicine Siriraj Hospital, Mahidol University since then.

She completed her research fellowship training in Procedural Dermatology at the University of Texas-MD Anderson Cancer center, Houston, Texas, USA, and Laser and Cosmetic Surgery at Washington Institute of Dermatologic Laser Surgery, Washington DC, USA in 2007 and 2008, respectively.

She has lectured nationally and internationally on the topics of dermatologic surgery, laser, and cosmetic procedures. She has published many book chapters and manuscripts in peer-reviewed journals.

Raymond LaCroix

Dr. Raymond graduated in Doctor of Medicine in 1987. He has the experience in humanitarian medical missionary work with Yanamani Indians in Venezuela doing reconstructive surgery in the early 90's. and Medical Consultant of an Advanced Aesthetic and Anti-aging practice in Aruba from 1995 to 2010 (15years) with Anti-aging, Cell Therapy, Aesthetic Medicine, facial cosmetic, plastic & reconstructive surgery. Consultative work and experience in stem cells.

Tanom Bunaprasert

Tanom Bunaprasert is currently the Vice Director of Chulalongkorn Surgical Training Center and Director of Stem Cell-Tissue Engineering & Organ Synthesis Laboratory. Dr. Bunaprasert is a member of the Administrative committee of Medical Research Center, the Chulalongkorn Biomedical Program (Master and Ph.D.), Faculty of Medicine, and the Chulalongkorn Medicine Research Center. He is also an Instructor for the Department of Otolaryngology.

Faculty of Medicine, Chulalongkorn University since 1999 and Facial Plastic and Reconstructive Surgery, Department of Otolaryngology, Faculty of Medicine, Chulalongkorn University since 2005.

Tanomkit Pawcsuntorn

Dr. Tanomkit Pawcsuntorn graduated bachelor degree in medical doctor from Chulalongkorn University. He got many certificates of several training such as Laser Lipolysis training, Water-assisted liposuction training, VASER liposuction training and Accusculpt Laser lipolysis training. He is member of many societies such as Dermatological Society of Thailand, International dermatosurgery, etc.. His currently positions are Resercher of Dermatological department, Chulalongkorn Hospital, Lecturer of Dermatological department, Mephaluang University, Lecturer of Dermatological department, Ramathipbodi Medical School

Thada Piamphongsant

Dr. Thada Piamphongsant graduated medical doctor from Faculty of Medicine Chiangmai University and he got certificate from American Board of Dermatology in 1982. He has many medical research achievement which are all the discovery of the first treatment such as Systemic Sclerosis, Leishmaniasis" disease, Pityriasis Lichenoides" disease and Discovery of the first ever treatment for the 30-year-old "Black Skin Fever", which related to Arsenic Poisoning, achieving an awarded certificate for "Leadership in Community Research" from Bibliography center, USA. His research articles was published in international medical journals (over 40 of these in top medical journals accredited by Index Medicus. His current position are President of Thai Society of Cosmetic Dermatology and Surgery, Cosmetic lecturer in Cosmetic Department, Faculty of Science, Mae Fah Luang University and Key consultant dermatologist for the World Health Organization (WHO) for Arsenic Poisoning, etc.,

Thamthiwat Nararatwanchai

Dr. Thamthiwat Nararatwanchai graduated bachelor degree in medical doctor from Siriraj University Hospital and PhD in Dermatology in Electron Microscope and Immunohistochemistry from Juntendo University, School of Medicine Tokyo, Japan. He got certificate from Board of Anti-Aging Medicine Specialization. He wrote more than 100 articles on the topic of acne, melasma, soft tissue, augmentation, skin disease and they was published in medical textbooks.

Tikamporn Yaibuales

Dr. Tikamporn Yaibuales graduated bachelor degree in medical doctor from Ramathibodi Hospital, Mahidol University. She got diploma from Thai Board of Pediatrics, Bhumibol Adulyadej Hospital and Diploma in Dermatology, Institute of Dermatology. She got fellow in Dermatologic Laser Surgery, Faculty of Medicine, Ramathibodi Hospital, Mahidol University.

Viboon Rojanavanich

Dr. Viboon Rojanavanich graduated from Chulanlongkorn University, Bangkok, B.Sc., M.D., Faculty of Medicine and took his Certified Thai Board of Dermatology at Institute of Dermatology, Bangkok. He got Diploma in Dermatologic Research from Juntendo University, Tokyo, Japan.

Dr. Viboon is currently a Medical Consultant at the Bangkok Christian Hospital and also the Head of their Laser and Skin Center. He is a member of the Thai Medicine Council, the Dermatological Society of Thailand. He is a Committee Member for the Thai Society of Anti-Aging and Regenerative Medicine and the Thai Society of Cosmetic Dermatology and Surgery. He has lectured and conducted workshop on topics of intradermal Botulinum toxin, lasers and hormone therapy.

Vanessa Phua

Dr. Vanessa Phua has a history of training in ophthalmology and aesthetic medicine internationally. Educated in the United Kingdom, with an ophthalmic background, Dr. Vanessa Phua has a microsurgical background with an interest in oculoplastics. This piqued her interest in aesthetic medicine, which encompasses both anti-ageing as well as aesthetic rejuvenation.

Her foray into aesthetic medicine commenced in 2004; she trained at various aesthetic institutions, including the UC Davis Aesthetic Medicine/Dermatology department in San Francisco, the Aesthetic Medicine and Cosmetic Surgery department at the New University Of Bulgaria, to name but a few. She has attended various international courses, obtaining the Diploma in Practical Dermatology in Wales in 2005. Dr Phua is Serdev™, Happy and Silhouette™ threadlift certified, and is also a clinical instructor in aesthetic procedures such as Ultherapy and Filler rejuvenation with Teoxane for doctors in the region. She also contributes articles for local and international health & lifestyle magazines such as Singapore Women's Weekly, SHAPE, Global Health and Travel magazines, on aesthetic medicine and cosmeceuticals.

As an avid gourmand with a passion for the aesthetics of the human form, Dr. Phua combines the art and science of aesthetic medicine and translates this into beauty for all her patients.

Wichai Hongcharu

Dr. Wichai Hongcharu is the Chief of Dermatology Unit of Saint Louis Hospital, Bangkok. He received both certificates of Clinical Fellowship in Dermatology and Research Fellowship in Laser and Photo Medicine respectively from Harvard and the Department of Energy in USA. Also, he was awarded diplomas in both Internal Medicine and Dermatology from University of London. Now he is a fellow member of American Society of Laser Medicine and Surgery.

Dr. Hongcharu received his M.D. degree from Chulalongkong University. From 1993- 1995, he had his dermatology training at Hammersmith hospital and also received Diploma in Dermatology from St. John's Institute of Dermatology, London. After his training in United Kingdom, he was recruited into Harvard scholars program during 1997-2000. During his clinical fellowship at Harvard, he had an opportunity to work with Dr. Rox Anderson at Wellman Laboratories of Photomedicine and received a research grant from Department of Energy, USA to study on photodynamic therapy and laser medicine. His publication especially "Topical ALA-Photodynamic Therapy for The Treatment of Acne Vulgaris" in Journal Investigative of Dermatology has great impacts on light-based therapy for acne. Dr. Hongcharu also practices dermatology, teaches at Mae Fa Luang University, and conducts research in new coming photomedicine.

Wilai Thanasarnaksorn

Wilai Thanasarnaksorn finished her medical degree from Mahidol University and her Diploma in Dermatological Sciences from the United Kingdom. From 1994 up the present, she is Consulting Dermatological in Samitivej Hospital, Bangkok, Thailand. Dr. Thanasarnaksorn is also a Lecturer and Consulting Dermatologist, Dermatological Unit, Department of Medicine, Ramahibodi Hospital, Mahidol University. She is a member of several cosmetic, dermatology and surgical associations here in Thailand and abroad. She also a columnist for a number of woman and teenage magazine.

PRE-CONGRESS COURSE

Wednesday, October 31, 2012

Course 1 “Cadaver Live Demonstration Course on Botulinum Toxin, Fillers and Thread Lifting”

First time offered in Thailand. A collaboration between Thai Society of Cosmetic Dermatology and Surgery; Division of Dermatology, Department of Medicine; Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology & Chula Soft Cadaver Surgical Training Center, Faculty of Medicine, Chulalongkorn University.

What Aesthetic Physicians should know about facial anatomy to maximize outcomes and safely perform the aesthetic procedures. The main content of this course will focus on how to determine appropriate techniques and how to avoid complications. This session will include cadaver live demonstration by the anatomists in conjunction with lectures on problem solving steps by the clinicians. The presentation will be displayed on two screens in the lecture hall.

Seats are limited to 150 Thai and 50 international participants and will be available on a first-come, first-served basis.

**PATTAYAPAT BUILDING, FACULTY OF MEDICINE,
CHULALONGKORN UNIVERSITY**

<input type="radio"/>	08.30-09.30	Aesthetic Anatomy of the Face (1): Facial Suspension System • Learn about the Deep Facial Plane: facial muscles, SMAS, sub-SMAS and retaining ligaments.	 <p>Panel of Experts From:</p> <p>Thai Society of Cosmetic Dermatology and Surgery;</p> <p>Division of Dermatology, Department of Medicine;</p> <p>Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology & Chula Soft Cadaver Surgical Training Center, Faculty of Medicine, Chulalongkorn University</p>
<input type="radio"/>	09.30-09.45	• Youthful versus aging face: What are the anatomical differences?	
<input checked="" type="radio"/>	09.45-10.00	Coffee Break	
<input type="radio"/>	10.00-11.00	• Botulinum Toxin: Management of Difficult Cases & Complications. <i>Area #1 Forehead and glabella muscles</i> <i>Area #2 Periorbital muscles and mid-face</i> <i>Area #3 Masseter muscle, parotid gland and perioral area</i>	
<input type="radio"/>	11.00-11.15	Aesthetic Anatomy of the Face (2): Facial Covering Unit • Learn about facial covering unit, the Superficial Facial Plane: skin, subcutaneous tissue above SMAS.	
<input type="radio"/>	11.15-11.45	• Thread Lifting & Tissue Sagging <i>Case #1 V Face lifting - lower face, jaw line and double chin</i> <i>Case #2 Forehead and eyebrow</i>	
<input checked="" type="radio"/>	11.45-12.30	Lunch	
<input type="radio"/>	12.30-12.45	Aesthetic Anatomy of the Face (3): Fat Pad & Fat Compartment • Learn about facial structures: superficial and deep fat pad, fat compartment of the face, fibrous band.	
<input type="radio"/>	12.45-13.00	Aesthetic Anatomy of the Face (4): Vascular System of the Face • Learn about vascular system of the face at different locations, anastomosis pattern, end artery area and individual vessel variation.	
<input type="radio"/>	13.00-14.00	• Fillers & Volume Loss <i>Case #1 Mid face</i> <i>Case #2 Infraorbital area</i> <i>Case #3 Temporal</i> <i>Case #4 Nose</i>	
<input checked="" type="radio"/>	14.00	End of Course 1	

STRICTLY NO VIDEO RECORDING AND PHOTO TAKING.

You are not allowed to bring camera, video recorder or any recording devices including iPad into the lecture hall.

Course 2 "Cadaver Practical Workshop on Botulinum Toxin, Fillers and Thread Lifting for Aesthetic Physicians"

First time offered in Thailand. A rare chance for Aesthetic Physicians for comprehensive demonstration and training on the face of cadaver. For the cadavers are fresh and not embalmed a nearly "close to reality" simulation of the aesthetic procedures can be experienced.

The attendees will join Course 1 in the morning session plus additional cadaver workshop in the late afternoon session. Participants will have the opportunity to use the information disseminated in the morning lectures as a guide for the procedures they have to perform in the afternoon cadaver workshop session.

The latest aesthetic techniques will be demonstrated by experts performing procedures on fresh human cadavers. 6 - 8 participants per group to ensure clear viewing. There will be 4 stations. You will participate in all station activities by small groups rotating from station to station. The anatomy and clinical instructors are standby to help and guide you.

This is not a hands-on cadaver dissection workshop. Course Language is English.

Seats are limited to 36 Thai and 12 international participants. Seating is reserved on a first-come, first-served basis.

The World of Allergan

Allergan is a global, multi-specialty health care company that discovers, develops and commercializes innovative pharmaceuticals, biologics and medical devices that enable people to live life to its greatest potential – to see more clearly, move more freely, express themselves more fully.

Founded in 1950 with headquarters in Irvine, California, Allergan focuses on distinct therapeutic and medical aesthetic specialty areas where unmet needs are significant, and where our high-quality, science-based products can make a meaningful difference in the lives of patients.

We make it our business to listen closely to the needs of medical specialists, fostering deep engagement, so that together we can advance patient care. We bring scientific excellence and rigor to our portfolio, in partnership with the medical community, to drive optimal patient outcomes. We operate state-of-the-art research and development facilities and world-class manufacturing plants.

Today, Allergan is a US\$4.8 billion¹ company with 10,000 highly dedicated and talented employees, global marketing and sales capabilities and a presence in more than 100 countries.

What would the best of medicine look like? It would look like Allergan.

Laboratoires Dom Suisse) Inc., or Lab Dom in short, is the world's largest research, formulator and developer of Swiss Cellular Therapy premier anti-ageing products. Designed in the form of softgels nutritional supplements, cosmeceuticals/cosmetics and injectables, these premier anti-ageing solutions are distributed in an extensive international network of more than 65 countries. Lab Dom has played an instrumental role in extending the novel Swiss Cellular Therapy through international exposure and expansion across the world. With state-of-the-art research facilities and manufacturing plants located across Switzerland and Germany, Lab Dom has formulated and developed several anti-ageing solutions based on the regenerative science of Swiss Cellular Therapy in the past 20 years. Lab Dom is hallmarked with an unrivalled commitment towards stringent manufacturing practices, quality control and safety assurance where over 50 international certifications have been accredited to us, of which 20 are distinctly from Switzerland.

Lab Dom is the world's first developer to creatively adopt mass production system for cell therapy and placental products. For over 20 years, Lab Dom has endeavored to invent anti-ageing, cosmeceutical and medical cell therapy solutions that are globally accessible. Through the integration of advanced Swiss technologies and proprietary methodologies, Lab Dom successfully created affordable anti-ageing supplements while maintaining high levels of quality assurance and therapeutic efficacy.

Lab Dom is the world leader in Swiss Cell Therapy and Placental Research. With a fervent vision of developing revolutionary natural therapy, Lab Dom stands at the forefront of Regenerative and Integrative Biomedicine. Throughout its 20 years of operation, Lab Dom has provided Original Equipment Manufacturing (OEM) services or contract manufacturing to international companies seeking to develop their own unique and innovative bioregenerative, cosmeceutical and anti-ageing solutions. Leveraging on its discovery of new source of bio-organisms and proprietary technologies, Lab Dom has invented modern cell therapy brands that address the source of diseases and diversified its therapeutic platforms into broader areas of medical treatments, creating new market opportunities and expansion.

In 2011, Lab Dom has undertaken the acquisition of a renowned Swiss Clinic to redevelop into the largest one and only 6 star anti-ageing and revitalisation clinic in the world. The 6 star Swiss Medical Wellness Center will be public-listed in the London Stock Exchange.

Lab Dom is currently headquartered in Geneva

We have been in the aesthetic business for nearly twenty years by acting as an exclusive distributor of the very very famous and well – known skincare brand, Biologique Recherche, France. The products are well – known and widely used among the elites and high class throughout the world.

Biologique Recherche products are well – accepted by everyone who is very serious about skincare. The products are categorized as the genuine dermoceutical cosmetic and carefully produced in order to achieve the following criterion standard.

1. Effective Dose.
2. Fully preserved the original physiological functions and physical structures of the ingredients.
3. Minimum to none of the preservatives added to the finished products. Auto – Preserved® technique is used in almost all of our products.
4. No additives what so ever, not even the perfume, color, added into our products.

Dr. Philippe Allouche, Director - Research & Development, is responsible for producing & stressing the very strict control of Biologique Recherche genuine dermoceutical skincare prior to marketing the products. The product ranges consist of a vast variety of products for the face cares, body cares (slimming & toning) and hairs cares as subdivided for cabin treatment and for retail (home uses) products.

The marketing target is achieved through the medical clinics, aesthetic departments in the hospitals, and of course, the high - class salons.

Last but not least, Biologique Recherche, France, is very famous and well - accepted for producing the Remodeling Face Machine (an aesthetic device). It is one of a kind, the machine that's very unique, but delivers the very miraculous results. Many clinics and hospitals in America and Europe are presently using this particular machine with great results and it is no exception in Thailand, Of course, many good - reputation hospitals in Thailand are currently utilizing this machine to serve their patients with an outstanding results.

Invida (Thailand) Limited

Tel: 02-696-8500

Company Overview

- Our ambition is to improve the lives of patients in Asia by making available differentiated pharmaceutical products of superior quality.
- With more than 3,500 employees throughout Asia Pacific, Invida operates throughout the commercial value chain from regulatory approval and product launch to lifecycle management.
- In Thailand we employ over 170 people in regulatory, sales, marketing and administration.
- The company is member of the Thailand Pharmaceutical Research and Manufacturers Association.
- We manage a portfolio of Invida healthcare brands as well as licensed products from other biotech and multinational companies.

History

- Formed in 2005 as a result of a strategic partnership of Quintiles, the world's leading pharmaceutical services organization; Temasek Holdings, one of the world's largest investment companies, and Zuellig Group, the largest pharmaceutical distribution and supply chain management network in Asia Pacific.
- On 11 November 2011, Italy based Menarini Group successfully acquired Invida Group, a strategic move that is poised to allow both companies and its partners to have a stronger presence in the Asia Pacific region. With 17,000 employees and annual revenue exceeding USD4.4 Billion, Menarini is the largest Italian pharmaceutical group and ranks 34th of 14,051 pharmaceutical companies in the world.
- Invida carries with it the history, relationships and strong track record with its global partners.
