# PRESIDENT'S MESSAGE

Dear Participants:

It is our great privilege to invite you to participate in our upcoming International Congress in Bangkok during August 22-25, 2013. The theme for 3rd ITCAM 2013 is "Stop a Moment! Let's Go Back to Beauty Science".

Our pre-congress program has been exceptionally prepared as a special course for a two-day demonstration on August 22-23, 2013 in live cadaver dissection; the anatomy of facial landmark for fillers and Botulinum toxin injections to minimize the adverse side effects and maximize the outcomes. This is a rare event that is hard to find the place in this world to attend and the seats are very limited.

Current topics in our Congress have been carefully designed for knowledge in Aesthetic Medicine which includes: Botulinum toxin, fillers, lasers and lights, thread lift, body contouring, peeling, hair management, stem cells, their complications and also holistic medicine.

We are moving too fast with new trends in beauty practice and careless about the safety of the patients. Now, it is time to stop for a moment and go back to Beauty Science before we continue on our daily practice.

Looking forward to seeing you at this splendid event this August 2013 in Bangkok.

Thada Piamphongsant, MD, FAAD  
President, Thai Society of Cosmetic Dermatology and Surgery

International Thaicoderm Congress on Aesthetic Medicine  
Theme "Stop a Moment! Let's Go Back To Beauty Science"

## ORGANIZING COMMITTEE 2013

**Dr. Thada Piamphongsant**  
President

**Dr. Thamthiwat Nararatwanchai**  
Vice President

**Dr. Sujitra Napathorn**  
Committee and Treasurer

**Dr. Suwirakorn Ophaswongse**  
Committee and Secretary

**Dr. Viboon Rojanavanich**  
Committee and Academic

**Dr. Nalinee Sutthipisal**  
Committee and Academic

**Dr. Wilai Thanasarnakorn**  
Committee and Public Relation

**Dr. Jaratsak Ruangpeerakul**  
Committee and Editor @Webmaster

**Dr. Paisal Rummaneethorn**  
Committee and Registration

**Dr. Suthat Duangdeeden**  
Committee and Social

**Dr. Nantapat Supapannachart**  
Committee Member

Theme "Stop a Moment! Let's Go Back To Beauty Science"

## ACADEMIC COMMITTEE OF SCIENTIFIC PROGRAM

**Dr. Thada Piamphongsant**  
President and Academic

**Dr. Viboon Rojanavanich**  
Committee and Academic

**Dr. Naline Sutthipisal**  
Committee and Academic

**Dr. Paisal Rummaneethorn**  
Committee and Academic

**Dr. Atchima Suwanchinda**  
Academic

## PANEL OF CONGRESS SPEAKERS

**Andre Vieira Braz**

Dr. Andre Vieira Braz graduated medical doctor from University of Campos (FMC), Medical School, Brazil. He works as Clinical Dermatologist and Dermatologic Surgeon at Clinica Dermatologica Dr. Andre Braz (Private Office). He is an international speaker in lectures and workshops to Allergan, Q-med, Anteis, Palomar lasers. He is member of many association such as Brazilian Medical Association, Brazilian Dermatology Society and American Academy of Dermatology.

**Chariya Petchngaovilai**

Dr. Chariya Petchngaovilai graduated medical doctor from Faculty of Medicine, Chulalongkorn University, Thailand and got Diploma of The Thai Board of Dermatology. Her Special Clinical Interests are Cosmetic and Dermatology.

**Denis Guillo**

Dr. Denis Guillo graduated from Medical College of Medicine and Surgery Lyon1, UER Alexis Carrel, France. Facial treatments are his area of expertise, which he practises using a fresh approach, far from the surgical approach which people are beginning to grow weary of. The techniques he uses are as unconstraining and non-aggressive as possible, compared with their surgical equivalents. He works extensively on improving the technique of non-invasive face-lifts using barbed threads (lifting without cutting the skin), including the recently-proposed improvements have been giving very good results for 6 years now, with a very natural look. He is the co-founder and the first president of the SOMEREFS, a recently-formed learned medical society specializing in the study of suspension threads.

**Eiji Yamashita**

Dr. Eiji Yamashita graduated his degree in accordingly Bachelor degree at Kyoto Pharmaceutical University, Master degree from Department of Natural Products Research, Kyoto Pharmaceutical University and Doctor degree from Department of Medical Biochemistry, Faculty of Pharmaceutical Sciences, University of Tokushima Research and Professional. He is Global Research and Development Manager at Fuji Chemical Industry Co., Ltd. and General Manager for Medical Nutrition Division at AstaReal Co., Ltd. He is the membership of many societies such as American Academy of Anti-Aging Medicine, Japanese Society for Astaxanthin and Japanese Cosmetic Science Society and The International Carotenoid Society. Etc., He got an Astaxanthin Award from the Japanese Society for Astaxanthin. Dr. Yamashita is recognized as one of the world's foremost authorities on astaxanthin for the benefit of human health, both as a dietary supplement and for topical application.

## PANEL OF CONGRESS SPEAKERS

**Emiel Spiessens**

Dr. E.F.A. Spiessens is a co-director of the holding company QRS-International and is also responsible as Managing Director for the distribution of QRS in the Asia-Pacific region. In the past, He was Managing Director various health care companies in Europe.

**Hee-Jin Kim**

Dr. HEE-JIN KIM graduated doctoral degree from Yonsei University. He is an editorial board of many journals such as Journal of Oral Biosciences, The Open Anatomy Journal and ISRN Anatomy and also being Chairman of Department of Oral Biology, Yonsei University College of Dentistry. His Project research is Development of new devices using Micro-Actuator-Generated Distractor (MAGD) in treating malocclusions, dentofacial deformities and jaw bone defects supported by a grant of the Korea Healthcare technology R&D Project, Ministry for Health, Welfare & Family Affairs, Republic of Korea (A090353)

**Hee Young Lee**

Dr. Hee Young Lee was a the fellow of many association such as Fellow of The Korean Society of Plastic and Reconstructive Surgeons, The Korean Society of Plastic and Reconstructive Surgeons, The Association of Korean Plastic Surgeons and also he chairman of the Korean Association of Stem-cell Therapy. He was a guest speaker for many congresses such as 31st Congress of The Korean Society for Aesthetic Plastic Surgery, 11th Congress of the Korean Association of Plastic Surgeons (KOREA), The 3rd Condensed Fat Grafting & Cell-Assisted Surgical Forum (THAILAND).

**Hyoung Jin Moon**

Dr. Hyoung Jin Moon graduated Doctor of Medicine Master of Science in Medicine from Yonsei University, Seoul, Korea. He was an International advisory trainer for Merz, Allergan, Ipsen, Teoxane. His current position is President of Navi Plastic Surgery Clinic. He is member of many association such as Koeran Academy of Facial Plastic & Reconstructive Surgery, Korean Society of Cosmetic Surgery, Korean Society of Liposuction Surgery and etc.,

**Ivona Blaskovic-Igerc**

Dr. Ivona Blaskovic- Igerc was graduated with honors from the Medical University of Rijeka Croatia, specialized in cosmetic Dentistry with special interest in Surgery, TMI disorders and esthetic medicine. She has her own Clinic in Rijeka, and she is practicing medicine and dentistry together with her family. She was specializing in surgery in Italy-periodontal cosmetic surgery which lead naturally to explore and further education in facial aesthetics and non aging medicine.

## PANEL OF CONGRESS SPEAKERS

**Jinda Rojanamatin**

Currently, Dr.Jinda is an Acting Director and Head of Dermatotomy and Laser Department at Institute of Dermatology, Bangkok. He has also served on the board of Dermatological Society of Thailand.

Dr.Jinda has been invited as a speaker at the several prestigious international meetings, such as World Congress of Dermatology, International Society for Dermatologic Surgery, including International Congress of Dermatology and Eurasian Congress in Aesthetic & Anti-Aging Medicine. His major topics of interest are skin laser surgery, as well as, Botulinum toxin and Fillers.

**Kotaro Yoshimura**

Prof. Yoshimura received his MD and PhD from the University of Tokyo School of Medicine. He was board certified in plastic surgery by the Japanese Society of Plastic & Reconstructive Surgery. He is an active member of many international Societies such as AAPS, ASPS, ASAPS, PSRC, ISAPS and IPRAS, and a founding member of ISPRES under IPRAS. He is a plastic surgeon-scientist working for Dept. of Plastic Surgery, University of Tokyo. His research interests cover a variety of fields in plastic surgery such as skin biology and wound healing, angiogenesis, stem cells and tissue regeneration/repair, aging and rejuvenation, and hair regeneration. He published more than 100 English articles in peer-reviewed journals indexed in Medline and Journal Citation Report.

**Luc Dewandre**

Dr. Luc Dewandre got his medical degree in 1979 at UNIVERSITE DE LOUVAIN (UCL), BELGIUM. He is specialist in the development of new cosmetics and medical aesthetic products. He has developed and launched the first French line of medical cosmetics containing glycolic acid in 1993, Exfolerm® line, Hydrelix®, Eryskin®, Depi 4®, (Laboratoires Cosmoscience, Geneva). Dr. Luc DEWANDRE is one of the world leaders and pioneers of Aesthetic Mesotherapy. He also helped pioneer, with other French experts, the new filler injection technique with flexible atraumatic intradermal microcannulae. He has developed the Skin Sculpting Technique® concept. He is member of the French Society of Aesthetic Medicine (SFME) Paris France.

**Manon Pilon**

Mrs. Manon Pilon as background spans over thirty years of professional experience in SPA and MEDICAL SPA operations and management, marketing strategies, Medical SPA concept and development with continuous improvement on marketing techniques and motivation methods.

She has a vast professional experience in conducting seminars and conferences to medical aesthetics professionals, and is holding senior management positions in companies such as Derme.ca, CurAge Med, CurAge SPA, CurAge Pharma and Europe Lab. Founder of a private Aesthetics Professional School in Montreal, Canada.

Mrs. Pilon is well known invited guest speaker at several trade event and conference world And was a guest speaker at several radio and television shows worldwide.

Winner of several awards (Business Woman and trade associations), author of 2 books « Anti-Aging the Cure Based on your Body Type» and « Decoder l'Autre», columnist and invited writer in reputable journals and magazines.

## PANEL OF CONGRESS SPEAKERS

**Mohamed Faizl Mohamad Anwar**

Dr. Mohamed Faizl Mohamad Anwar graduated Doctor of Medicine from University of Putra, Malaysia. Dr. Faizal has experience in training new doctors on the methodology of aesthetic treatments. He has also been invited to speak at local and international conferences on topics such as "Advance BTA Usage", "Silhouette Threadlift: The Non-surgical Lift". He has also given talks to the public regarding the field of aesthetic medicine in awareness campaigns. Official Spokes-person & Scientific Presenter for PARVUS Cosmeceutical Skincare Line (January 2007 – October 2008). Planned & executed launch of this skincare product in Malaysia & Indonesia. He is Corresponding Membership of Anti Aging Academy of Aesthetic Medicine, Korea and Member of Malaysia Dermatology Association,

**Mukta Bhardwaj Sachdev**

Dr. Mukta Bhardwaj Sachdev graduated Medical Doctor (Dermatology), FAAD (USA). She works as Senior Consultant and Professor, Department of Dermatology, Mangal Hospital, Bangalore, India. She got the 1st prize – Award Paper Session-10th South Zone Conference – IADVL-Trivandrum, India. She was invited to be a guest speaker for both nation and international conference. She is a Founder Member, ISLDA, INTERNATIONAL SCHOOL OF LASERS, DERMATOLOGY AND AESTHETICS (ISLDA) which conducted more than 20 workshops for dermatologists and also regularly run workshops for pharmaceutical representatives.

**Nalinee Sutthipisal**

Nalinee Sutthipisal 1<sup>st</sup> Class Hans, (Chulalongkorn Univ.), Dermatologist, Head of the Department of Dermatology and Esthetics Institute, Samitivej Sukhumvit Hospital, Bangkok, Thailand. She is also certified in Anti-Aging Medicine Specialization (WOSAAM) and currently Vice President of the Thai Association of Anti-Aging and Regenerative Medicine as well the registrar of the Thai Society of Cosmetic Dermatology and Surgery.

**Nark-Kyoung Rho**

Dr. Nark-Kyoung Rho graduated Master degree from School of Medicine, Sungkyunkwan University, Seoul, Korea. He is a Consulting dermatologist of many organizations such as Neuronox (Meditoxin, Siax, Botulift), Maly-Tox Inc. (Korea), Juvederm, Allergan Korea (USA), and Palomar Medical Technologies, Inc. (USA). Currently His practice devoted almost exclusively to cosmetic dermatologic surgery, light/laser/RF/ultrasound-based technologies, treatment of acne, and the anti-aging procedures including botulinum toxin, fillers, and fat grafting. He got Best Lecture Award 2012 from Association of the Korean Dermatologists. He is a member of many societies such as Member of Korean Medical Association, Member of Korean Society for the Study of Obesity.

**Niwat Polnikorn**

Niwat Polnikorn is currently a clinical Professor in Dermatology and Director of Kasemrad Aesthetic Center, Kasemrad Prachaueam Hospital and Chaophraya Aesthetic Center, Chaophraya Hospital in Bangkok, Thailand. He was also previously the President of the Thai Society of Cosmetic Dermatology and Surgery. He is member of the American Society of Dermatologic Surgery and the Asian Dermatologic Laser and Surgery Study Group.

## PANEL OF CONGRESS SPEAKERS

**Paisal Rummaneeethorn**

Paisal Rummaneeethorn graduated his Bachelor Degree of Medicine with first class honours in 1984 at Chulalongkorn University Hospital. Dr. Rummaneeethorn got a Certificate in Laser Medicine from Tokyo Women Medical University in 1992 was Thai Board certificate for Facial Plastic Surgery (ENT) in 2006. He also got his Bachelor degree of LAW from Sukhothaihammatirat University. Currently he is the committee of several societies such as Thai Society of Cosmetic Dermatology, The Thai Association. He is the lecturer at School of Antiaging, Mah Fah Luang University and The lecturer at the Skin center Srinakharin University and currently Editor in Chief of Asian Journal of Aesthetic Medicine.

**Peter Huang**

Dr. Peter Huang graduated medical doctor from China Medical University. He was a Fellowship for Head and Neck Surgery at Columbia University and Chief of Plastic Surgery Department, Min-Sheng General Hospital. His present position is Director of Rebecca Cosmetic Institute. He is Member of many associations such as Taiwan Surgical Association, Taiwan Plastic and Reconstructive Surgical Association, Taiwan Burn Medical Association, International Confederation of Plastic, Reconstructive and Aesthetic Surgery (IPRAS)

**Ratchathorn Panchaprateep**

She graduated Medical degree (First Class Honor), Diplomate and Master degree of Science in Dermatology from Faculty of Medicine, Chulalongkorn University, and studying Ph.D. in skin and hair stem cell at Faculty of Medicine, Chulalongkorn University. She got certificate in Aesthetic and Anti-Aging Medicine (ECCA). She is instructor in Dermatotomy, Chulalongkorn University since 2008

**Sung-Yoon Won**

Mr. SUNG-YOON WON graduated OT (Occupational Therapist) from Department of occupational Therapy, Woosong University, Daejeon, Korea and Ph.D Course from Yonsei University College of Dentistry. His current position is professor at Department of Occupational therapy, Woosong University. He also writes International SCI Journals.

**Suwirakorn Ophaswongse**

Assist. prof. Dr. Suwirakorn Ophaswongse graduated Doctor of Medicine (2<sup>nd</sup> class Honor) from Chulalongkorn University. Her current position are Skin Consultant and Director of Srinakharinwrot Skin center, Srinakharinwrot University, Bangkok, Thailand. She is member of Thai Society of Cosmetic Dermatology and Surgery (Treasurer) and Thai Dermatological Society (Public relation). She wrote many articles such as Allergic contact cheilitis , Topical Non-Steroidal Anti- inflammatory.

## PANEL OF CONGRESS SPEAKERS

**Tanom Bunaprasert**

Tanom Bunaprasert is currently the Vice Director of Chulalongkorn Surgical Training Center and Director of Stem Cell-Tissue Engineering & Organ Synthesis Laboratory. Dr. Bunaprasert is a member of the Administrative committee of Medical Research Center, the Chulalongkorn Biomedical Program (Master and Ph.D.), Faculty of Medicine, and the Chulalongkorn Medicine Research Center. He is also an Instructor for the Department of Otolaryngology, Faculty of Medicine, Chulalongkorn University since 1999 and Facial Plastic and Reconstructive Surgery, Department of Otolaryngology, Faculty of Medicine, Chulalongkorn University since 2005.

**Tanvaa Tansatit**

Associate professor Tanvaa Tansatit graduated Master of Science major in Health Development from Chulalongkorn University. His current positions are Head of Gross of Anatomy unit and Director of surgical and training center. He specialized in surgical and clinical anatomy.

**Wichai Hongcharu**

Dr. Wichai Hongcharu is the Chief of Dermatology Unit of Saint Louis Hospital, Bangkok. He received both certificates of Clinical Fellowship in Dermatology and Research Fellowship in Laser and Photo Medicine respectively from Harvard and the Department of Energy in USA. Also, he was awarded diplomas in both Internal Medicine and Dermatology from University of London. Now he is a fellow member of American Society of Laser Medicine and Surgery.

Dr. Hongcharu received his M.D. degree from Chulalongkorn University. From 1993-1995, he had his dermatology training at Hammersmith hospital and also received Diploma in Dermatology from St. John's Institute of Dermatology, London. After his training in United Kingdom, he was recruited into Harvard scholars program during 1997-2000. During his clinical fellowship at Harvard, he had an opportunity to work with Dr. Rox Anderson at Wellman Laboratories of Photomedicine and received a research grant from Department of Energy, USA to study on photodynamic therapy and laser medicine. His publication especially "Topical ALA-Photodynamic Therapy for The Treatment of Acne Vulgaris" in Journal Investigative of Dermatology has great impacts on light-based therapy for acne. Dr. Hongcharu also practices dermatology, teaches at Mae Fa Luang University, and conducts research in new coming photomedicine.

**Wilai Thanasarnaksorn**

Wilai Thanasarnaksorn finished her medical degree from Mahidol University and her Diploma in Dermatological Sciences from the United Kingdom. From 1994 up to the present, she is Consulting Dermatologist in Samitivej Hospital, Bangkok, Thailand. Dr. Thanasarnaksorn is also a Lecturer and Consulting Dermatologist, Dermatological Unit, Department of Medicine, Ramahitthi Hospital, Mahidol University. She is a member of several cosmetic, dermatology and surgical associations here in Thailand and abroad. She also a columnist for a number of woman and teenage magazine.

# 3<sup>rd</sup> ITCAM PRE-CONGRESS COURSE 1

Thursday, August 22, 2013 @ 1<sup>st</sup> Floor, Pattayapat Building, Faculty of Medicine, Chulalongkorn University Hospital

## COURSE 1 (1-DAY)

### “CADAVER LIVE DEMONSTRATION ON BOTULINUM TOXIN & FILLERS”

Following our successful organizing the first time in Thailand year 2012 “CADAVER COURSE & WORKSHOP” for Aesthetic Physicians. This year we are excited to announce the even better “3rd ITCAM Pre-Congress Cadaver Course & Workshop 2013”.

A collaboration between Division in Anatomy & Developmental Biology, Department of Oral Biology, Yonsei University College of Dentistry, Korea; Thai Society of Cosmetic Dermatology and Surgery, Division of Dermatology, Department of Medicine; Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology & Chula Soft Cadaver Surgical Training Center, Faculty of Medicine, Chulalongkorn University.

This year we will explore in depth at certain anatomic regions of the face for Botulinum toxin and filler injections. New trends in Botulinum toxin injection will be discussed to aim for natural look outcomes. Advanced filler injection techniques at center of the face & periorbital area for centre-facial rejuvenation, one of the most difficult problems, will be demonstrated.

This session will include cadaver live dissection by the anatomists in conjunction with a live demonstration on problem solving steps by the clinicians. Topics include:

- Facial muscles anatomy for Botulinum toxin injection concentrated at forehead, glabella and periorbital regions.
- Soft tissue plane, fat compartments, nerve and blood vessels anatomy for fillers at the center of the face.
- Danger zones to avoid.

Seats are limited to 150 Thai and 50 international participants and will be available on a first-come, first-served basis.

**STRICTLY NO VIDEO RECORDING AND PHOTO TAKING.** You are not allowed to bring camera, video recorder or any recording devices including iPad into the lecture hall.

# 3<sup>rd</sup> ITCAM PRE-CONGRESS COURSE 2

Thursday, August 22, 2013 @ 1<sup>st</sup> Floor, Pattayapat Building, Faculty of Medicine, Chulalongkorn University Hospital  
Friday, August 23, 2013 @ Chula Soft Cadaver Training Center, Faculty of Medicine, Chulalongkorn University Hospital

## COURSE 2 (2-DAY)

### "CADAVER HANDS-ON WORKSHOP ON BOTULINUM TOXIN & FILLERS FOR AESTHETIC PHYSICIANS"

The attendees will join Course 1 on August 22 plus an additional cadaver workshop on August 23, 2013.

Participants will have the opportunity to use the information disseminated in Course 1 as a guide for the procedures they have to perform on the face of real fresh cadaver in Course 2 Cadaver Workshop Session at Chula Soft Cadaver Surgical Training Center.

#### Session 1: DEMONSTRATION

There will be 6 stations for cadaveric faces demonstration. You will participate in all station activities by small groups rotating from station to station.

- Pre-dissected cadaver demonstrating facial muscle anatomy.
- Identify facial anatomy in multi-depth levels, SMAS, fat compartments, blood vessels and nerves.
- Various section cutting planes of cadaver head.

#### Session 2: PERFORM PROCEDURES AND DISSECTION

A rare chance for Aesthetic Physicians for comprehensive demonstration and training on the face of cadaver. The latest techniques in Botulinum toxin and fillers will be demonstrated on the face of cadaver by the experts. The anatomists will dissect and identify the structures in multi level planes.

Each attendee will have a chance to perform these procedures by the assistance of the instructors. 6-8 attendees per group to ensure clear viewing.

Seats are limited to 45 Thai and 15 International participants. Seating is reserved on a first-come, first-served basis

**STRICTLY NO VIDEOS RECORDING AND PHOTO TAKING.** You are not allowed to bring camera, video recorder or any recording devices including iPad into the lecture hall.

Booth A1

**ERICSON BIO TECH CO.,LTD**

314 Soi Ladprao 53(Chockchai 4) Wangthonglang, Wangthonglang, Bangkok 10310

Telephone: 02-948-4412-3,

Fax: 02-943-0279.

Website: [www.biologique-recherche-thailand.com](http://www.biologique-recherche-thailand.com),E-Mail : [brthailand@gmail.com](mailto:brthailand@gmail.com)**Company Profile & Activities**

We have been in the aesthetic business for nearly twenty years by acting as an exclusive distributor of the very very famous and well - known skincare brand, Biologique Recherche, France.

The products are well - known and widely used among the elites and high class throughout the world.

Biologique Recherche products are well - accepted by everyone who is very serious about skincare. The products are categorized as the genuine dermoceutical cosmetic and carefully produced in order to achieve the following criterion standard.

1. Effective Dose.
  2. Fully preserved the original physiological functions and physical structures of the ingredients.
  3. Minimum to none of the preservatives added to the finished products. Auto - Preserved® technique is used in almost all of our products.
  4. No additives what so ever, not even the perfume, color, added into our products.
- Dr.Philippe Allouche, Director - Research & Development, is responsible for producing & stressing the very strict control of Biologique Recherche genuine dermoceutical skincare prior to marketing the products. The product ranges consist of a vast variety of products for the face cares, body cares (slimming & toning) and hairs cares as subdivided for cabin treatment and for retail (home uses) products.
- The marketing target is achieved through the medical clinics, aesthetic departments in the hospitals, and of course, the high - class salons.

Last but not least, Biologique Recherche, France, is very famous and well - accepted for producing the Remodeling Face Machine (an aesthetic device). It is one of a kind, the machine that's very unique, but delivers the very miraculous results. Many clinics and hospitals in America and Europe are presently using this particular machine with great results and it is no exception in Thailand. Of course, many good - reputation hospitals in Thailand are currently utilizing this machine to serve their patients with an outstanding results.

BRUXELLES

**Nelly De Vuyst ®: 40 years of Research and Experience to Beauty Professionals**

Over the past 40 years, Nelly De Vuyst ® has marked the history of cosmetology by the performance of its professional treatments, whose efficacy has hitherto never been equaled by any other brand in the world. Nelly De Vuyst ® has enjoyed a longstanding reputation as one of the most recognized laboratories in Europe through excellence in performance products for the face and body.

Physicists, chemists and dermatologists have joined Ms. De Vuyst to develop this revolutionary line of products and corrective treatments.

In the spring of 2008, the new generation of Nelly De Vuyst ® launched the new generation representative of the experience and innovation of the brand. It is with unprecedented results that the new line is needed today in the spa industry and pushes the limits of performance of skin care that we know so far.

The skilful combination of essential oils, plant extracts, minerals, and protein is the result of a full range of care for face and body, created for beauty professionals and their clients.

A The Nelly De Vuyst ® team laboratory is dedicated to the continuing search for new ingredients and new technologies that would provide the more effective synergy results.

**An Individual Concept:**

Nelly De Vuyst ® represents a range of corrective treatments of personalized highest level. This revolutionary line Nelly De Vuyst ®, you can select the products and specific treatments tailored to specific areas of the face, neck, and body. The line includes professional care of the highest efficiency to perform the unique methods of treatment in your spa.

**Best Science and Nature**

Nelly De Vuyst ®: is the unique combination of the richness of nature and the latest scientific discoveries in the field of ingredients and technology to ensure the highest efficiency of care. All Nelly De Vuyst ® products including oils are non-comedogenic.

**A unique manufacturing process: Diadermic Method™**

All Nelly De Vuyst ® products are designed from a unique manufacturing process: = Diadermic Method™. Diadermic Method™ is a revolutionary method that maximizes the synergy and the potential salutary between each of the active ingredients. It follows from the fruit of arduous research conducted by specialists in cosmetics and chemistry applied to skin health.

Once the exclusive formulas are made, they are converted with the Diadermic Method™ followed by safety tests, allergies and efficacy before their products are marketed. Diadermic Method™ brings the final product molecules whose smaller size allows maximum compatibility with the skin, thus promoting all assets to better interact. Indeed, Nelly De Vuyst ® care products are absorbed by target cells to deeper levels of the skin, thanks to its lighter texture to encourage reconstruction and correction of the skin from within.

The secret products of Nelly De Vuyst ® is water rich in minerals plays a catalytic role and benefits of favorable treatment anti-aging effective. The expertise and commitment to excellence in Nelly De Vuyst ® are guaranteeing the effectiveness of the Diadermic Method™.

**D & N International Co Limited**

21A Tai Thong Crescent, Senette Estate, Singapore 348754

Contact Person: Ms Kenjana(Kai)\Mobile number: + 66 (0) - 836890309

D & N International Company Ltd was established in Millennium year and held a number of medical devices distributorship for ASEAN and the Middle-East markets.

D & N main core business is to supply a one-stop solution to medical spas, hospitals, aesthetics clinics, trading companies and entrepreneurs in the related medical field. Our main stream products are mainly state-of-art Radio-Frequency(RF) Non-Abrasive Machine for Facial Tightening, Body Contouring and Fractional Skin Resurfacing. All our machines are approved by US FDA, HAS, Thais FDA and endorsed by CE Mark; an international recognized body for other European products like HA fillers and Dermasculpt Micro-Cannulas needles etc

Since our establishment of our company in 2000, we had sold a number of our machines and consumables to various hospitals, clinics and medical spa within the regions.. Our Multi-level Skin Resurfacing System from EquipMed has helped to renew, refresh and rejuvenate the skin of our clientele using the micro-dermabrasion technology; ideal in reducing early aging lines, hyper pigmentation, acne and so forth.

D & N vision is "Your Beauty is Our Responsibility" in line with its objectives; to be the forefront of the medical beauty business. We carry high-tech medical-related consumables products; catering to the different needs of the medical industry.

For your information, our company's website is under construction and would be up-host in due course.
