or email to thaicosderm@gmail.com
Organized by Thai Society of Cosmetic Dermatology & Surgery (THAICOSDERM)

PRESIDENT MESSAGE

Dear colleagues:

Thanks you all for coming to our 5th ITCAM conference on August 19-23, 2015 at Centara Grand Hotel at Central Lardprao, Bangkok. This year, we have specially arranged an Innovative Dimension in Aesthetic Medicine and Surgery which has been greatly supported by our world renowned extinguished faculties.

The program includes one day of Laser and Energy Based Devices Symposium which emphasized on the practical tips and pearls including VDO session. The management controversy of difficult cases will be discussed by our extensively experienced speakers. New and latest technologies including innovative techniques will be demonstrated in the scientific sessions including workshops to highly benefit your patients. Other two days of Main Congress will be focused on noninvasive aesthetic surgery particularly toxin and filler, thread lift and fat graft. The anatomical approaches for natural results and high safety will be highlighted. Lived patient injection demonstration from different approaches, Dermatologist VS plastic Surgeon, will be demonstrated by Korean Masters. Another two days of Post- Congress Cadaver Course will be on lived patient injection simultaneously with cadaveric dissection. The facial aging anatomy, injection techniques and safety injection zone will be illuminated.

Our conference has focused on scientific knowledge in depth, innovative techniques and practical tips sharing from our world expert faculties to benefit your clinical practice and the patients to the utmost.

We wish your attendance would be another exciting and memorable moment in Bangkok. Again, we really do appreciate your presence.

A handwritten signature in black ink, reading "Thada P." with a stylized flourish at the end.

PANEL OF CONGRESS SPEAKERS

**Katherine Sarah
GOLDIE**

Dr. Katherine Sarah Goldie graduated MBChB. from Edinburgh Medical School. Her current position is full time medical aesthetic practice in Scotland and London - specialising in botulinum toxin, dermal fillers, skin care, chemical and natural skin peeling. Her special interest is also in anti-aging treatment, using haematological diagnostics. She is a clinical director and founder of Medics Direct Anatomy Course training, UK. She was selected to be in one of the top 10 Aesthetic Doctors in the UK 2013.

Daniel CASSUTO

Dr. Daniel Cassuto is a Board Certified Plastic Surgeon from Italy. He is a Professor in Plastic Reconstructive and Aesthetic Surgery at Plastic Surgery Department, University Hospital (Policlinico) of Modena, Italy. He also has his private practice in Milano. He has published many peer reviewed journals in aesthetic and plastic surgery. In addition, he is a world renowned keynote speaker in aesthetic and plastic surgery. His interest also includes laser and energy based devices and non invasive aesthetic treatments.

Diane DUNCAN

Dr. Diane Irvine Duncan is an American Board Certified Plastic Surgeon. She graduated from Tulane University School of Medicine and obtained her plastic surgery residency from University of Utah Medical Center, Salt Lake City, Utah. She was an Assistant Professor of Plastic Surgery at Texas Tech University Health Sciences Center in Lubbock, Texas. At present, she works at Fort Collins in Colorado. She was awarded Phi Mu Scholarship Award, Who's Who in National Colleges and Universities, Phi Kappa Phi and Academic Scholarships to Southeastern Louisiana University and Louisiana State University. She is also a respectably world renowned speaker internationally. In addition, She has published numerous peer-reviewed journals in aesthetic and plastic surgery.

Ofir ARTZI

Dr. Ofir Artzi is an internationally renowned expert in the field of lasers and aesthetic dermatology. After graduating from the Faculty of Medicine at the Technion in Haifa, Israel, he went on to specialize in Dermatology at Tel Hashomer Medical Center in Israel. Dr. Artzi gained unique expertise among the leading laser centers in the US and Europe, focusing on scar prevention and remodelling. Today, Dr. Artzi heads the Center for Aesthetic Dermatology at Tel Aviv Medical Center in the Ichilov hospital. The Center for Aesthetic Dermatology is in the forefront of treatment, teaching and research in aesthetic dermatology. Dr. Artzi is a member of many national and international dermatological and cosmetic professional associations, participates in many professional forums and has been honored as a guest speaker at numerous national and international aesthetic and dermatologic conferences.

Hee-Jin KIM

Dr. HEE-JIN KIM graduated doctoral degree from Yonsei University. He is an editorial board of many journals such as Journal of Oral Biosciences, The Open Anatomy Journal and ISRN Anatomy and also being Chairman of Department of Oral Biology, Yonsei University College of Dentistry. His Project research is Development of new devices using Micro-Actuator-Generated Distractor (MAGD) in treating malocclusions, dentofacial deformities and jaw bone defects supported by a grant of the Korea Healthcare technology R&D Project, Ministry for Health, Welfare & Family Affairs, Republic of Korea (A090353)

Jisoo KIM

Jisoo Kim graduated M.Sc from Inje University Medical school, Seoul, Korea. His current position is Director of Creamy Clinic at Seoul, Korea. He is an advisory board of many organizations such as Allergan, Medytox, and Merz. He was invited to be a lecturer in various topics of dermatology problem and Aesthetic trend such as Treatment for Acne and pore, Current trend and filler treatment and Filler treatment technique and complications. He is a member of many societies ex. Korean Society of obesity treatment, American academy of Aesthetic medicine, Allergan Korea.

Nark-Kyoung RHO

Dr. Nark-Kyoung Rho graduated Master degree from School of Medicine, Sungkyunkwan University, Seoul, Korea. He is a Consulting dermatologist of many organizations such as Neuronox (Meditoxin, Siax, Botulift), Medy-Tox Inc. (Korea), Juvederm, Allergan Korea (USA), and Palomar Medical Technologies, Inc. (USA). Currently His practice devoted almost exclusively to cosmetic dermatologic surgery, light/laser/RF/ ultrasound-based technologies, treatment of acne, and the anti-aging procedures including botulinum toxin, fillers, and fat grafting. He got Best Lecture Award 2012 from Association of the Korean Dermatologists. He is a member of many societies such as Member of Korean Medical Association, Member of Korean Society for the Study of Obesity.

Park Kyung WON

Dr. Park Kyung Won work at Sungshin and Kwangju University in Korea as Visiting professor. He wrote 2 articles which are The breast surgery and CCALC (complete capsulectomy as like cystectomy). He is member of many associations such as Member of Korea Medical Association, Member of Korea Academy of International Cosmetic Surgery and Member of International Academy of Cosmetic Surgery.

Hee-Dae JEON

Dr. Hee-DaeJeon graduated in medicine from Soonchunhyang University. At the present time, He works as Chief Executive of Banobagi Dermatology Clinic , Dermatologist at the Korean Dermatology Association and Clinical Associate Professor of Filler and Botox Department of Dermatology Soonchunhyang University Hospital. He is a member of many societies such as Information Director of Korean Society for Anti-Aging Dermatology, Regular Member of KDA (Korean Dermatologic Association), Executive of Best stem cell research and Allergan Korea Advisory Board.

Ik Soo KOH

Ik Soo Koh graduated M.D., and Ph. D. Hanyang University College of Medicine, Seoul. He working as Clinical Professor Department of Plastic and Reconstructive Surgery at Hanyang University Hospital And Paik Hospital, Inje University and President of Petit Noble Academy for doctor training course. He was invited to be a speaker in many congresses to give lecture in Topic of Botox and Restylene treatment.

Tae Jo KANG

Dr. Kang, Tae Jo graduated M. Sc. In from Medicine Department of plastic surgery, School of medicine, Yonsei university, Seoul, Korea. He work as Representative Director, YUJIN Plastic Surgery Yujin clinic, Seoul, Korea, Adjunct Professor, Severance Hospital and Overseas Training, University of Pittsburgh Medical Center, USA. As his profession experiences, He got certificates from Minister of health, Welfare and Family Affairs, Republic of Korea. He is a member of many association such as Korean Medical Association, Korean Plastic and Reconstructive Surgery, International Society of Aesthetic Plastic Surgery, etc.

CHANG, H.S

Dr. Chang H.S. is a Chairman-Korean Aesthetic Surgery & Laser Society and Vice Chairman-Doctor Association of Obesity Research . He is also Board Member of Korea Academic Society of Anti-Wrinkle , Korean Doctors org and Korean Urological Association. He is a former Advisory Doctor- Lutronic, Meditronic.

Kim Ji HONG

Dr. Jihong KIM graduated MD from Medical School of Catholic University. He work as ENT advisory at medical office of Korean blue house and being member and trainee of Korean ENT doctors association and KAFPRS (Korean Academy of Facial Plastic and reconstructive surgery) and Member and trainee of KSAS (Korea society of aesthetic surgery)

Yong Oock KIM

Dr. Yong Oock Kim, M.D graduated Ph.D. from Yonsei University College of Medicine. He works with many professional organization of Korea such as being a Chairman of Board, Korean Cleft Palate & Craniofacial Association, President of International Society of Simulation Surgery and etc. He is member of many societies such as Korean Society of Plastic and Reconstructive Surgeons, Korean Society of Aesthetic Plastic Surgery, International Simulation Society in Surgery.

Takahiro FUJIMOTO

Dr. Takahiro Fujimoto graduated PhD in Medicine (Surgical science) from Tokyo University. His current position is Director of Clinic F Laser & Skin Center. He got a Grand Prize: Japanese Beauty Doctor of "Beauty Story (most famous female magazine in Japan. He wrote many articles published in magazine such as Effects of Novel Vitamin C Derivative GO-VC, After Treatment of Fractional CO2 Laser and Conoarasuib study of Fractional Laser devices. He is a member of many associations such as American laser society of medicine and surgery, Tokyo Metropolitan Medical Association, Japanese society of esthetic dermatology, etc.

Néstor TORRES

Dr. Nestor Torres graduated from the Colombian School of Medicine and El Bosque University in Bogota as a medical doctor and surgeon in June, 1993. PROGRAM

5th International ThaiCosdermCongress on Aesthetic Medicine 2015
THREE DAYS MAIN CONGRESS

Wednesday, August 19th to Friday, August 21st, 2015
At Centara Grand Hotel @ Central Plaza Ladprao, Bangkok, Thailand

"Innovative Dimensions in Aesthetic Medicine & Surgery"

MAIN CONGRESS DAY 1,

Wednesday, August 19, 2015 LASER AND ENERGY BASED DEVICES SYMPOSIUM

Vibhavadee Hall B

8.00-9.00 SPECIAL SESSION: VAGINAL REJUVENATION

CHAIR : Atchima Suwanchinda

8.00-8.20 The Use of Non Invasive Devices in Vaginal Tightening and External Genitalia Rejuvenation
Diane Duncan (USA)

8.20-8.40 Laser Vaginal Tightening: Dermatologist Perspective
Worapong Manuskiatti (Thailand)

8.40-9.00 Vaginal Rejuvenation: How I do it?
Enrina Diah (Indonesia)

SESSION 1 HOW TO COMBAT MELASMA AND UNWANTED PIGMENT?

This Session is Composed of

- What is New in Melasma?
- Is Laser Suitable for Melasma Treatment?
- What is the Best Laser for Melasma Treatment ?
- The Innovative Method to Overcome Melasma Recurrence
- New Solution and Complication Prevention in Melasma Treatment

CHAIR: Wilai Thanasarnaksorn

9.00-9.20 What's New in Melasma Treatment?
Niwat Polnikorn (Thailand)

9.20-9.40 Telangiectatic Melasma: How to treat?
Thanya Techapichetvanich (Thailand)

9.40-10.00 The Use of IPL in the Treatment of Melasma and Pigmented lesion: Efficacy and Safety
Diane Duncan (USA)

10.00-10.20

COFFEE BREAK

10.20-10.40 Innovative Solution for Melasma Treatment
Daniel Cassuto (Italy)

Blue Toning Treatment for Melasma
Chang, H.S. (Korea)

11.00-11.20 Integrative Treatment for Melasma: How Expert Does?
Nalinee Sutthipisal (Thailand)

Vibhavadee Hall A

SESSION 2 BODY CONTOURING DEVICES: WHAT ARE DIFFERENCES AND WHAT WORK BEST?

This Session is Composed of

- Scientific Background of the Techniques or Technologies of Body Contouring
- Breakthrough Technology for Fat Killer and Body Contouring
- " How to DO IT?" Video Presentation
- When to choose
- How to Create Natural Results and Avoid Complications

CHAIR: Paisal Rummaneethorn

9.00-9.20 Injection Lipolysis: Its Evidence Based Science, Benefits and Complication
Diane Duncan (USA)

9.20-9.40 Innovative Non Invasive Focused RF Fat Killer
Takahiro Fujimoto (Japan)

9.40-10.00 New Indications of Cryolipolysis
Rungsima Wanitphakdeedacha (Thailand)

10.20-10.40 Body Contouring: Surgical VS Non Surgical
Enrina Diah (Indonesia)

10.40-11.00 RF Assisted Liposuction for Body Contouring: How to Get Best Results and No Complication
Diane Duncan (USA)

11.00-11.20 The Art of Body Sculpting: Harvesting Method, Where and When to Add for Best Results
Tae Jo Kang (Korea)

11.20-11.40 595nm and Laser Toning: Innovative Duo for Melasma Treatment
Ratchathorn Panchaprateep (Thailand)

11:20-11:40 UAL plus cellulite mode treatment
Paisal Rummaneethorn(Thailand)

11.40-12.00 PANEL DISCUSSION: MELASMA PRACTICAL TIP:

- HOW TO CHOOSE and WHEN TO ADD LASER AND ENERGY BASED DEVICE
- COMMON COMPLICATION: HOW TO AVOID IT
- WHAT TO OFFER FOR DIFFICULT RECALCITRANT CASES

11.40-12.00 What Can Go Wrong with Body Contouring Technology
Enrina Diah (Indonesia)

12.00-13.00

LUNCH BOX

12.00-13.00 Room B1 Krungthep 2: Live Demonstration Workshop (BTL) INDUSTRIAL Fat Killer RF Technology: New Paradigm in Body Sculpting WORKSHOP
Takahiro Fujimoto (Japan)

Room B3 Ladprao Room 1-2-3-4 Live Demonstration Workshop (Advance Medical Esthetic):
PLEXR Non-Ablative Dynamic Blepharoplasty
Kim Ji Hong (Korea)
Moderator: Paisal Rummaneethorn (Thailand)

Room B5 Horvang 2-3 Live Demonstration Workshop (Aesthetic By Ampex):
Innovative Treatment for Melasma and Unwanted Pigmentation in Asian
Chang H.S. (Korea)

13.00-13.30

SEE EXHIBITION

Vibhavadee Hall B

SESSION 3 FACIAL TIGHTENING, LIFTING AND RESHAPING: HOW TO CHOOSE APPROPRIATE DEVICES? This Session is Composed of

- Scientific Background of the Technique or Technology
- Which Conditions Work Best for Individual Techniques
- How to Create Natural Results and Avoid Complications
- "How to DO IT?" Video Presentation
- Tips and Tricks for Individual Techniques

CHAIR: Atchima Suwanchinda

13.30-13.50 Thread Lifting: The Practical Approaches for Facial Tightening and Lifting
Faizal Anwar (Malasia)

13.50-14.10 Hyperkinetic Lifting : Innovative Approaches for Facial Rejuvenation
Daniel Cassuto (Italy)

14.10-14.30 What is New in Microfocused Ultrasound Treatment for Facial Reshaping?
Diane Duncan (USA)

Vibhavadee Hall A

SESSION 4 UPDATE IN ACNE AND SCAR TREATMENT INNOVATIVE TECHNIQUES AND NEW DEVICES THAT SHOULD NOT BE MISSED

This Session is Composed of

- What is New and Update Treatment in Acne and Scar Treatment
- New Technique for Facial Lifting and Reshaping
- New Paradigm in Skin Rejuvenation
- Innovative Cosmeceuticals and Drug Delivery

CHAIR: Nalinee Sutthipisal

13.30-13.50 Microneedling Combine with Bone Marrow Growth Factor
Diane Duncan (USA)

13.50-14.10 Treatment for abnormal scar in 21 century
Ofir Artzi (Israel)

14.10-14.30 Innovative Technology to Combat Acne
Rungsima Wanitphakdeedacha (Thailand)

14.30-14.50

COFFEE BREAK

14.50-15.10 Fat graft for Facial Reshaping
Tae Jo Kang (Korea)

14.50-15.10 Needle Shaping –New Technique for Face Lifting and Facial Lining
Kim Ji Hong (Korea)

15.10-15.30 RF Assisted Liposuction for Skin Tightening and Reshaping
Diane Duncan (USA)

15.10-15.30 Subcutaneous Stem Cell Injection for Skin Rejuvenation
Park Kyung Won (Korea)

15:30-15.50 New Approach to Improve Skin Laxity Wichai Hongcharu (Thailand)	15:30-15.50 New technology for Cosmetic delivery Nark-Kyoung Rho (Korea)
15.50-16.30 COMPLICATION CORNERS: What Can Go Wrong and How to Prevent It? (10mins Each) <ul style="list-style-type: none"> • Fat Graft, Tae Jo Kang (Korea) • RFAL, Diane Duncan (USA) • Thread Lift, Faizal Anwar (Malasia) • HIFU, Atchima Suwanchinda (Thailand) 	15.50-16.10 New Paradigm of Skin Rejuvenation and Its Excellent Values Nark Kyoung Rho (Korea)
	16.10-16.30 Picosecond Laser: Science and Its Application Niwat Polnikorn (Thailand)
Room B1 Krungthep 2 Live Demonstration Workshop (Technicalbiomed) Cell graft: Innovative Techniques for Facial and Body Reshaping Tae Jo Kang (Korea)	
Room B2 Krungthep 4 Live Demonstration Workshop (Laser Engineer): LASEMD: SMART Technology for Skin Brightening Nark-Kyoung Rho (Korea) Moderator: Voranuj Ngamvasusiri (Thailand)

Speaker DINNER SYMPOSIUM by THAICOSDERM

END OF DAY 1

MAIN CONGRESS DAY 2,

Thursday, August 20, 2015 AESTHETIC MEDICINE SESSION

Vibhavadee Hall B

9:00-10:30	UPDATE AESTHETIC MEDICINE AND SURGERY 2015 CHAIR: Thada Piamphongsant, Suthat Daungdeeden
9.00-9.20	Update Aesthetic Science and Technology 2015 Jinda Rojanamatin (Thailand)
9.20-9.40	Stem Cell in Aesthetic Medicine: Art and Science, Clinical Application Park Kyung Won (Korea)
9.40-10.00	Hydrolifting, Vampire Face lift and PRP Skin Rejuvenation Hee-Dae Jeon (Korea)
10.00-10.20	Cosmeceutical Importance: The Use for Non-Responsive Dermatologic Problems Thada Piamphongsant (Thailand)

Vibhavadee Hall A

9.00-10.30	Live Demonstration Industrial Workshop by Merz: Expectation of Old VS Young Patients: The A.E.C Approach-Anatomy Experience with Clinical Consideration Katherine Sarah Goldie (UK) Moderator: Atchima Suwanchinda (Thailand)
-------------------	--

10.20-10.30 OPENING CEREMONY**10.30-11.00****COFFEE BREAK****10:30-12:30 SKIN LIFTING:
WHAT'S NEW AND WHAT TO KNOW**

11.00-11.20 How to Make Best Combination of Non-Surgical Modalities for Facial Lifting to Achieve Similar Results as Surgical Face Lift
Daniel Cassuto (Italy)

11.20-11.40 3D Cannula Lifting: Innovative Skin Lifting
Park Kyung Won (Korea)

11.40-12.00 Thread Lifting: Why We Need It and How to Do It
Tanom Bunnaprasert (Thailand)

12.00-12.20 Complications from Permanent and Resorbable fillers: How to deal with it?
Daniel Cassuto (Italy)

**11.00-12.30 Live Demonstration Industrial Workshop by Galderma:
Right Combination of Different Fillers and Techniques.**
Ofir Artzi (Israel)
Moderator: Wilai Thanasarnaksorn (Thailand)

12.30-13.30**LUNCHEON SYMPOSIUM (1) by MENARINI Dermatix
The Tomorrow of Scar Management:**

Yong Oock Kim (Korea)

Moderator: Apirag Chuangsuwanich (Thailand)

13.30-14.00 SEE EXHIBITION**13.30-14.00 SEE EXHIBITION**

**14:00-16:00 MINIMALLY INVASIVE TREATMENT:
HOW TO GET SIMILAR RESULT AS
SURGICAL TREATMENT**
CHAIR: Paisal Rummaneethorn,
Nantapat Supapannachart

**14.00-15.30 Live Demonstration Industrial Workshop by Perfection:
Innovative Noninvasive Hyperkinetic
Technique for Face and Body Rejuvenation**
Daniel Cassuto (Italy)
Moderator: Atchima Suwanchinda (Thailand)

14.00-14.20 Fat Graft Injection: How to Increase Fat Survival and Avoid Complication
Tae Jo Kang (Korea)

14.20-14.40 Tear Trough: Fillers VS Blepharoplasty
Paisal Rummaneethorn (Thailand)

14.40-15.00 How Dermatologist Does Facial Lifting?
Wilai Thanasarnaksorn (Thailand)

15.00-15.30 How to Choose and Where to Inject to Obtain Natural Results for Full Face Rejuvenation Approaches for Different Ages
Ofir Artzi (Israel)

15.30-16.00**COFFEE BREAK****16.00-18.00 INTERACTIVE PANEL DISCUSSION: World Expert Approaches
(CAUCASIAN VS ASIAN)**

- Face and Body Beautification
- How to Manage difficult cases
- How to deal with Complication

- Katherine Sarah Goldie (UK)
- Ofir Artzi (Israel)
- Daniel Cassuto (Italy)
- Tanom Bunaprasert (Thailand)

Chair: Nalinee Sutthipisal,

Wilai Thanasarnaksorn

18.30-20.30

Dinner Symposium by Merz
The Art of Beauty: Manage Patient Expectation and Delivering Extraordinary Results

Katherine Sarah Goldie (UK)
Moderator: Atchima Suwanchinda (Thailand)

END OF DAY 2

MAIN CONGRESS DAY 3,

Friday, August 21, 2015 AESTHETIC MEDICINE SESSION

Vibhavadee Hall B

9:00-12:20 **FILLERS: HOW TO BECOME BETTER INJECTOR. START FROM THE BASIC WITH SYSTEMATIC APPROACHES, LEARN THE BEST TECHNIQUE TO ACHIEVE NATURAL RESULTS AND AVOID COMPLICATIONS**
CHAIR: Sujittra Napathorn, Viboon Rojanavanich

9.00-9.20 **Important Asian Anatomy for Filler Injection to Optimize Great Results and High Safety**
Hee-Jin Kim (Korea)

9.20-9.40 **The Systematic Approaches for Facial Contouring**
Katherine Sarah Goldie (UK)

9.40-10.00 **Periocular Filler: Techniques for Natural Results and How to Avoid Complication**
Ik Soo Koh (Korea)

END OF DAY 3

5th ITCAM

POST-CONGRESS COURSE

5th International ThaicosdermCongress on Aesthetic Medicine 2015

Saturday, August 22, 2015

@ 2nd Floor, Room no. 230/1 Pattayapat Building, Chula Soft Cadaver Surgical Center, Faculty of Medicine, Chulalongkorn University, Bangkok

"Innovative Dimensions in Aesthetic Medicine & Surgery"

Cadaver Course Day 1

"Live Patient Injection with Cadaveric Demonstration"

This course will focus on clinic-based live patient injections and anatomical cadaveric demonstration for insight learning experience. Tips and tricks to transform science to art of beauty using combination of toxin and filler injections to maximize natural results and create no complications

A collaboration between Thai Society of Cosmetic Dermatology and Surgery; Division of Dermatology, Department of Medicine; Division of Facial Plastic and Reconstructive Surgery, Department of Otolaryngology & Chula Soft Cadaver Surgical Training Center, Faculty of Medicine, Chulalongkorn University, Bangkok, Thailand.

What's New In 5th ITCAM Live Injection with Clinico-anatomical Cadaveric Demonstration Course 1, 2015

This year we approach the moderate to advanced injection of toxin and filler to achieve natural results and no complication with simultaneously step by step clinicoanatomical correlation.

- **PERIORBITAL AREA:** The hollow eyes, one of the most challenging problems. Thorough elaboration on the surface anatomy, clinical assessment including the combination of toxin and filler injection techniques will be lived-shown by world-renown clinical experts and anatomists. Learn the layers by layers approaching to achieve natural aesthetic result. Identifying the safe zone and danger zone to avoid complications. How to get the natural results and safety techniques will be emphasized. Simultaneously important cadaveric nerve, muscles and vascular structure periorbitally will be demonstrated.

- **MID CHEEK AUGMENTATION:** The surface anatomy and clinicoanatomical assessment of mid face aging will be discussed. Mid cheek groove, malar mound and mid cheek augmentation will be demonstrated.

- **PERIORAL AREA:** Learning the aging smile, gummy smile and other aesthetic indications for the perioral area. How to assess the cause clinically and correct naturally? The complicated muscular structure and other important structure periorally will be illustrated. Gummy smile assessment and how to correct it will be shown. Aging smile correction and lip beautification will be practically demonstrated. Lip-chin augmentation will be emphasized.

- **SAGGING JOWL and DOUBLE CHIN** is one of the most problematic aging faces. The illustrations of the cause of lower face aging will be explained. How to get best results and safe correction using toxin and filler injection and will be elaborated clinically and cadaverically.

Seats are limited to 100 Thai and international participants and will be available on a first-come, first-served basis.

STRICTLY NO VIDEO RECORDING AND PHOTO TAKING.

Camera, video recorder or any recording devices including iPad are not allowed to be brought into lecture hall.

2nd Floor, Pattayapat Building, Faculty of Medicine, Chulalongkorn University

7:30-8:00	Registration	
8.00-8:30	What we learn from cadaver?	Hee-Jin KIM (Korea)
8:30-9:00	Why Origin is important in Biologics	Jisoo Kim (Korea)
9.00-9.30	How to make Thai favored face shape with Toxin & Filler	Nark Young Roh (Korea)
9:30-10.00	Total Facial Rejuvenation by Filler. Combination use of Toxin in Blepharoplasty (Lip & Chin augmentation)	Iksoo Koh (Korea)

SESSION 1: PERIORBITAL AREA

10.00-11.30 **Correction of Hollow Eyes and Periorbital Rejuvenation** Katherine Sarah Goldie (UK)
(90mins) CHAIR: Atchima Suwanchinda (Thailand)
Moderator: Paisal Rummaneethorn (Thailand) Hee-Jin Kim (Korea)
Jisoo Kim (Korea)

10.00-10.20 **Lecture on:** Katherine Sarah Goldie (UK)
(20mins)

- Overview of hollow eye problem and aging eyebrows
- Related surface anatomy
- Essential periorbital anatomy (Upper and lower lid) and eyebrows
- Clinical assessment
- Injection Techniques of eyelid and eyebrows beautification
- Complications
- Tips and tricks for natural results
- Danger zone

10.20-11.10 **Live Patient Evaluation and Injection** Jisoo Kim (Korea)
(50mins) • Toxin and Filler Injection

11.10-11.30 **Cadaveric Dissection and Demonstration:** Hee-Jin Kim (Korea)
(20mins)

- Describing the underlying structure defect, important muscle, nerve, and important vascular structure
- Danger zone

11.30-11.40 (10mins)

COFFEE BREAK

SESSION 2 : MID CHEEK AUGMENTATION

11.40-13.10 **Mid Cheek Augmentation** Hee-Jin KIM (Korea)
(90mins) CHAIR: Atchima Suwanchinda (Thailand)
Moderator: Wilai Thanasarnaksorn (Thailand)

11.40-12.00 **Lecture on:** Jisoo Kim (Korea)
(90mins)

- Overview of mid face aging problem
- The surface anatomy and clinicoanatomical assessment of mid face aging
- Mid cheek groove, malar mound and other related surface anatomy and retaining ligaments
- Clinical assessment
- Injection techniques
- Tips and tricks for natural results
- Complications

12.00-12.50 **Live Patient Evaluation and Injection** Katherine Sarah Goldie (UK)
(50mins) • Toxin and Filler Injection

12.50-13.10 **Cadaveric Dissection and Demonstration:** Hee-Jin Kim (Korea)
(20mins)

- Describing the underlying structural defect, important nerve, muscular and important vascular structure
- Danger zone

13.10-14.10 (60mins)

LUNCH

SESSION 3: PERIORAL AREA

14.10-16.00 **Special Session Hands-on Workshop** Heedae Jeon (Korea)
(120mins) **Hands-on Workshop on toxin, filler and thread** Hyun Jun Park (Korea)
Myoung jin Oh (Korea)
Jisoo Kim (Korea)
Ik soo Koh (Korea)
Nark Young Rho (Korea)

14.10-15.40 **Correction of Perioral Area** Katherine Sarah Goldie (UK)
(90mins) CHAIR: Atchima Suwanchinda (Thailand)
Moderator: Paisal Rummaneethorn (Thailand) Hee-Jin KIM (Korea)
Wilai Thanasarnaksorn (Thailand)

14.10-14.30 (20mins)	Lecture on: <ul style="list-style-type: none"> • The pathogenesis and related surface anatomy of aging smile, gummy smile, aging lip and aging perioral area • Clinical Assessment and the aesthetic indications for the perioral area. • Gummy smile assessment • The complicated muscular structure and other important perioral structure • Aging smile correction and lip beautification Injection Techniques • Lip-chin augmentation injection techniques • Complications and how to avoid • Tips and tricks for natural results • Danger zone 	Katherine Sarah Goldie (UK)

5th IITCAM

POST-CONGRESS COURSE

5th International ThaicosdermCongress on Aesthetic Medicine 2015

Sunday, August 23, 2015

@ 4th Floor, Pattayapat Building, Chula Soft Cadaver Surgical Center,
Faculty of Medicine, Chulalongkorn University, Bangkok

"Innovative Dimensions in Aesthetic Medicine & Surgery"

Cadaver Course DAY 2

"Hands-On Cadaveric Full Facial Filler Injections & Dissections"

This course is provided for aesthetic physicians for full face approaches in toxin and filler injection. The world renowned faculties are anatomist, plastic surgeon, dermatologic surgeon and aesthetic surgeon who have long term experiences in anatomical and clinical correlation in filler and toxin injection. The safest and latest techniques of filler and toxin injection will be elaborated.

Each attendee will have a chance to do cadaveric dissection on your own under the guidance from our faculties and assistance from individual clinical instructors. The guided cadaver dissection handbooks will be provided. Two cadavers with six attendees per group will be arranged.

After completion of Hands-on Cadaveric Course, the attendees are able to do the following objectives.

- Understand anatomical correlated facial aging
- Understand surface and functional facial anatomy
- Understand essential anatomy for facial injection
- Be able to identify essential vessels, nerve and important structures
- Identify safe and danger zone
- Understand proper toxin and filler injection technique: safe entry point and depth of injection
- Tips and tricks to achieve good aesthetic results and avoid complications

The attendees will be allowed to join the cadaver course on August 22, 2014

Seats are limited to 60 Thai and international participants.
Seating is reserved on a first-come, first-served basis.

STRICTLY NO VIDEO RECORDING AND PHOTO TAKING.

Camera, video recorder or any recording devices including iPad are not allowed to be brought into lecture hall.

Bausch & Lomb (Thailand) Ltd.

Bausch + Lomb, A Valeant Company, is the eye health company dedicated to Bringing Visionary Ideas to Eye Health. We offer the world's most comprehensive portfolio of eye health products, and we have one of the oldest, best known and most respected healthcare brands in the world. We grew to become a multibillion dollar corporation with approximately 11,000 employees worldwide, and with products available in more than 100 countries. We market four broad categories of products.

Vision Care: Our contact lens offerings span the entire spectrum of wearing modalities and include such well-known brand names as Pure Vision2®, SofLens59®, Toric, daily disposable contact lens, color cosmetics lens, Boston® and Optima®. Our lens care products include Biotrue™ and Renu® brand of chemical disinfectants for soft contact lenses as well as the Boston® line of products for cleaning GP contact lenses.

Pharmaceuticals: Our products treat a wide range of eye conditions including glaucoma, eye allergies, conjunctivitis, dry eye and retinal diseases. Leading OTC products include the OcuVite® and PreserVision® brands of ocular vitamins, Soothe® dry eye drops, Alaway® allergy drops and antibacterials.

Cataract and Vitreoretinal Surgery: We offer a full suite of products for cataract and vitreoretinal surgery as well as refractive laser surgery.

Aesthetics : Solta Medical is a global leader in the aesthetic energy-based device industry, providing innovative, effective solutions for patients; each designed to enhance and expand our partner physicians' medical practices.

Viora

About Viora

Celebrating its 10 year anniversary, Viora is an award-winning medical aesthetics solutions company that's established in over 65 countries. Viora's skilled and knowledgeable clinical and technical teams, working with clinicians around the world, have produced innovative, proprietary technologies such as CORE, SVC™ and PCR™. These technologies have revolutionized non-invasive treatments to improve control and increase opportunity for practitioners, while enhancing patient experience in numerous applications. Viora's in-house expertise has been at the forefront of implementing new developments in response to market demand, improving upon treatments using existing RF and light technologies. Viora builds time machines, so our customers can shape their future. For more information, visit www.vioramed.com.

BOOTH B8-B9

Allergan (Thailand) Ltd.

About Us

From diverse strengths come important new therapies that make a real difference. Allergan is a global, technology-driven multi-specialty health care company pursuing therapeutic advances to help patients live life to their fullest potential. In making this commitment, we work to develop an unparalleled level of insight into patients' wants and needs — and into the priorities and concerns of the medical specialists who treat them. To this end, we employ more than 50 percent of our work force in either research and development (R&D) or sales, ensuring our efforts are focused on innovation and our customers.

Allergan's flagship franchises in eye care, neurosciences, medical dermatology and urologics are structured under the company's pharmaceutical business portfolio, Allergan Pharmaceuticals. This portfolio offers specialty physicians and their patients a wide range of treatments to help preserve and protect sight, reduce physical disability and enhance quality of life.

With the acquisition of Inamed Corporation in 2006, Allergan added breast aesthetics and dermal fillers to its business portfolio to create a world-leading medical aesthetics franchise. All of these products are now represented within the Allergan Medical corporate division.

With specialty product lines focused on high-growth markets, Allergan represents a new multi-specialty health care model for the future, where diversification and focus live together to offer physicians and patients best-in-class treatments and a robust pipeline for continuous innovation. Bolstered by an integrated R&D organization and global infrastructure, characteristics of some of the industry's largest pharmaceutical companies, Allergan also maintains a lean and efficient operation with solid growth prospects, like many smaller and more specialized organizations in the health care field. Allergan is large enough to command sufficient resources to address significant patient needs yet small enough for nimble execution. As we look to the future, we will continue to follow our R&D technologies into additional specialty areas and build a leadership presence of relevance to the doctors and patients we serve.

BOOTH B10-B11

Merz Health Care (Thailand) Co.,Ltd.

MERZ AESTHETICS

Since creating the first anti-wrinkle cream in 1953, Merz has been a driver of innovation in the fast-evolving field of aesthetic medicine. Building on more than a century of healthcare expertise and scientific legacy, we offer one of the most comprehensive product portfolios in the aesthetics market. Today, our products are used by healthcare professionals in over 90 countries.

OUR PRODUCT RANGE

We offer an aesthetic portfolio with a range of treatment options (device, injectables and topicals) that allows physicians to use Merz technologies to treat a broad range of patient's concerns. Our comprehensive product offering ranges from a botulinum neurotoxin free of complexing proteins and a full line of dermal fillers to cosmetics and a revolutionary skin-tightening and lifting device.

OUR PHILOSOPHY

TARGETED INVESTMENTS WITH SIGNIFICANT STRATEGIC VALUE, MUTUAL FINANCIAL BENEFIT AND A FASTER PATH TO MARKET

We invest globally in aesthetic healthcare companies who are pursuing innovative, breakthrough science. Our primary goal is to link our expertise with advanced ideas and technologies from emerging companies or academic institutions.

Through the Merz Corporate Venture Capital Initiative, we offer up initial funding in the early stages of development of a company or technology and are committed to further investments in pace with the company's progress. This could be alone, or in conjunction with other venture capital and investment funds.

OUR FOCUS

INNOVATIVE IDEAS AND TECHNOLOGIES IN AESTHETICS

We are seeking outstanding ideas and promising technologies in aesthetics that are capable of generating a high level of consumer interest, with a specific focus in anti-aging, skin rejuvenation and body-shaping or sculpting technology.

Although our interest is primarily focused on early stage projects and seed investments in aesthetics, our goal is to maximize the value of our entire portfolio, including the development

OUR RESEARCH & DEVELOPMENT

Innovation is a cornerstone of Merz's success, and that's why we rely on our strong research and development capabilities to develop new products and technologies. Our ongoing R&D efforts are intended to provide new formulations and additional indications to address key unmet needs within the therapeutic areas we serve.

In line with our corporate strategy, R&D work is focused on the basic areas: aesthetic medicine, neurotoxins, and regional products. Much of that research is performed at our own facilities, with Frankfurt serving as Merz's global R&D hub.

In addition to maintaining our internal R&D capabilities, Merz also leverages an international research network. Through exchanges with world-renowned experts, university research institutes, and ambitious startups, we continue to drive novel research to deliver innovative products and treatment options. of promising later stage investments and opportunities across all of Merz's therapeutic focus areas.
